

## Northumbrian Water Pumping Station Addenda

### General Design of pumping station

1. Pumping stations to conform with current NWL specification E0702 Early consultation with NWL New Development is essential Contact Mr E Parkin 0191 3016545

### Layout of Pumping Station

2. Developers should consider the effect of the encroachment of a pumping stations location with the sewerage Undertaker at an initial stage of the Design process. The siting of a Pumping Station needs to consider its influence on adjacent land where existing the future development occurs.
